Project description artnership.htm

The objectives of the Action will be achieved through regular and tailor-made anti-corruption peer reviews, regional analysis and pressure tools based on anti-corruption performance indicators, as well as developing and promoting policy recommendations, regional experience sharing and capacity building on dedicated thematic areas, such as law enforcement action against corruption, business integrity and integrity in education.

Expected results:

- -Improved anti-corruption performance under three overarching pillars: i) anti-corruption policy, legal and institutional frameworks; ii) prevention of corruption, iii) enforcement of criminal responsibility for corruption.
- -Strengthened role of CSOs in anti-corruption policy development and monitoring, including their engagement with relevant state bodies in charge of decision-making.
- -Higher enforcement rate of high-level or complex corruption cases in the EaP countries.
- -The EaP countries prioritise business integrity measures in their anti-corruption policy.
- -Increased awareness of systemic weaknesses to promote integrity in education and of sound policy responses to reduce corruption risks, build resilience and enhance integrity.
