Ինքնագրություն

CirculUP! is a multi-year EU-funded project dedicated to driving the transition to a circular economy in Armenia. The overall objective is to ignite a systemic shift in the Armenian economy and society at large toward circularity. Specific Objective 1. To empower civil society actors so they may play a fundamental role within a newly-formed multi-stakeholders Armenian Coalition for Circularity. Specific Objective 2. To create the conditions for the Armenian entrepreneurial ecosystem to adopt Circular Economy principles and conscious environmental practices. Specific Objective 3. To bring into light the concept of circularity among Armenian citizens, giving them a sound understanding and greater sensitivity in relation to circularity and the environment. The main activities will focus on building an Armenian Coalition for Circularity, capacity building for startups and SMEs, as well as a large-scale awareness-raising campaign. A total of 525K EUR will be transferred to third parties as financial support in this journey.

Ակնկալվող արդյունքներ:

By 2025:
