

Enhancing Policy Framework and Capacity for Effective Migration and Asylum Management in Armenia

Duration: 30.11.2023 - 29.05.2026

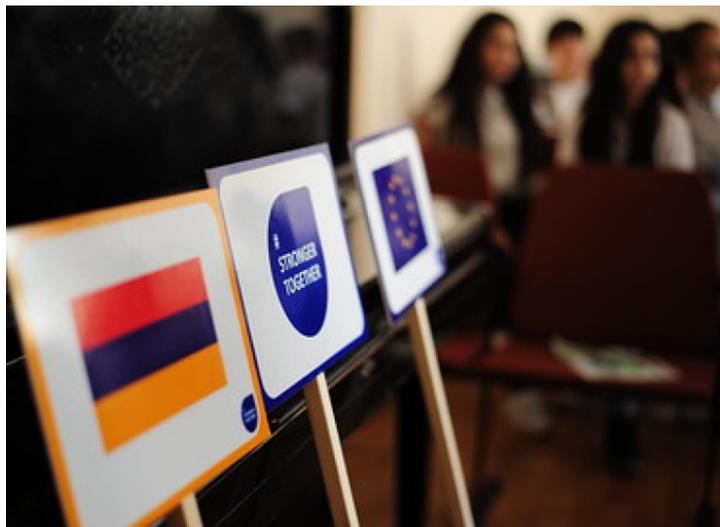

Countries:
Armenia

EU contribution: € 1 850 000

Total budget: € 1 850 000

Implementer:

International Organization for Migration (IOM), United Nations High Commissioner for Refugees (UNHCR)

Project description:

The project “Enhancing Policy Framework and Capacity for Effective Migration and Asylum Management in Armenia” is jointly implemented by International Organization for Migration (IOM) and the UN Refugee Agency (UNHCR) in cooperation with the Migration and Citizenship Service of Ministry of Internal Affairs. The two- and a half- year project is funded by the European Union (EU) and aims to enhance migration and asylum governance in Armenia, in line with reforms implemented in 2018 to enhance human rights in the country. It is based on the legislative, regulatory and policy reforms initiated by Government of Armenia.

The new Concept of Migration and Asylum Governance in Armenia focuses on a rights-based approach to managing migration and on protecting refugees and asylum seekers and creating evidence-driven gender sensitive policies across government agencies. With Armenia’s shift from primarily an emigration country to a growing destination country for migrants, this action is crucial to developing secure, inclusive, and well-governed migration practices aligned with international standards. The project also aims to support the implementation of the commitment of Armenia under the EU-Armenia Comprehensive and Enhanced Partnership Agreement (CEPA).

Expected results:

Expected Outcomes:

- Enhance migration and refugee policies.
- Improve infrastructure and digitalization for effective migration and asylum management.
- Improve digitalization systems
- Strengthen quality assurance and training capacities for sustainable asylum processes.
- Improve reception capacities for asylum seekers.
